

How to Calculate your Basic Residential Water & Wastewater Bill

Water Usage
(from your bill)

24.8 m³

2025

Water and wastewater bills will be issued every other month – January, March, May, July, September & November
Remember that the total amount on your bill is for two months of service and use.
The following is a typical bill calculation without any extra surcharges or adjustments*.

1

Base Rate = \$70.22

*based on 20 mm (5/8") water meter

This is the bimonthly cost for being connected to the municipal water and sewer systems, before usage charges.

\$70.22 ^A

2

Water Use Charge

Water Usage (m³) x \$1.14

=

\$28.27 ^B

Your water meter is read each billing period to determine water usage in cubic metres (1 m³ = 220 gallons)

3

Sewer Use Charge

Water Usage (m³) x \$1.49

=

\$36.95 ^C

Sewer usage is not metered directly. We use water usage for this calculation.

4

Total Usage Charges (A + B + C)

=

\$135.44 ^D

NEW!
(COMING SOON)

5

Capital Reserve Fund

Total Usage Charges (D) x 0.6666

=

\$90.28 ^E

These funds are set aside for maintenance and renewal of infrastructure

6

Total Bill (D + E)

=

\$225.72

*Surcharges and adjustments include water termination/restoration fees, property sale/meter reading fees and/or sump pump fees.
